

Children and Young People's Mental Health Service (CYPMHS) Kent

From time to time, we find it difficult to cope with daily life.

Do you feel misunderstood, sad, anxious or alone?

Or all of the above?

Whilst these feelings can be normal, you might find that over time, things may get on top of you. It's at times like these, that it helps to talk to someone about your worries and feelings.

That's where we come in.

We are the Kent Children's and Young People's Mental Health Service (CYPMHS).

We provide emotional wellbeing and mental health support for children and young people like you.

We know that reaching out for help can sometimes be difficult, this is why we are an open referral service.

This means that we will take referrals directly from you or someone else; like your parent, school or other professionals that contact our service.

If you feel like you need to talk to someone you can contact us by telephone, online, by email or speak to a trained professional who will guide you and help you to feel better. If required, they can see you in a setting that is suitable for you.

When can we help?

- Do you often find yourself feeling hopeless and tearful?
- Are you finding day to day life difficult to cope with?
- Do you feel overly nervous or worried?
- Do you find your behaviour gets you in trouble?
- Have you thought about hurting yourself?

These are just some of the things we can help and support you with. If we feel that our service is not right for your particular need, then we will put you in touch with someone that is able to help you further as we work with a variety of different organisations.

We also provide 24 hour online support as we know that sometimes it helps to be able to talk to someone at any time of the day.

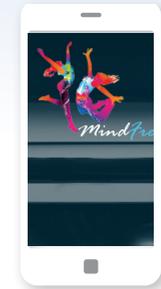

The road to
better wellbeing

What can I access online?

MindFresh

This award winning app has lots of information and guidance that can help you deal and cope with life's challenges. Further details, along with a host of useful information and links to other organisations who work closely with young people to help them cope with life's difficulties can be found by visiting

Online
help

How do I access the service?

You or someone on your behalf can contact us directly on **0300 123 4496** to make a self-referral or seek advice. Your doctor, school, family member or any other professional can also make a referral on your behalf.

We have a number of locality hubs across Kent including Dartford, Dover, Folkestone, Canterbury, Ashford, Broadstairs, Maidstone and Tunbridge Wells. These services include a Neuro Developmental and Learning Disability Team and a Crisis Team.

We are happy to meet with you at one of our hubs, however, we are also able to meet you elsewhere; this can be at your school, home or even a coffee shop.

Please be aware that while we are happy to look at assessment reports and any prescribed treatments, medication and diagnosis, which you may have acquired from another NHS service, privately or historically, we are always required to conduct our own assessment before providing any form of intervention. All prescribers **MUST** make their own assessment before providing any prescriptions. In the interim, any ongoing medication or treatment that was recommended and/or prescribed as part of the previous assessment will need to be provided by that organisation. We will review this with you as part of our assessment, though we cannot guarantee that we will provide the same treatment, as any intervention will be informed by our clinical judgement. If you decide to seek a private second opinion outside the NHS, then you will be responsible for any cost incurred.

How long will I wait to see someone?

Whilst waiting times may vary, we will always aim to see you within 18 weeks.

However, if you find that things are getting more stressful for you whilst you are waiting to be seen, please contact us as soon as possible on 0300 123 4496 so we can provide you with support.

What do I do if I need immediate help?

If you feel like you need help straight away you can take the following steps to ensure you keep yourself safe until we can see you:

- talk to someone you feel comfortable with and trust about how you are feeling so they can help direct you to get the right help.
- you can contact us on **0300 123 4496**, 24 hours per day, 7 days per week. (Please note that from 6pm on weekdays and 12pm on Saturdays, all calls will be automatically diverted to the NELFT Mental Health Direct support line who are a team of dedicated professionals waiting to take your call.)
